### PROFILE

I am Atah Ur Rahman Habibi, a highly skilled and dedicated front-end developer. I have completed three years of my associate degree in computer science at Grossmont and Cuyamaca College, where I gained expertise in HTML, CSS, JavaScript, and React.js. I am also deeply interested in learning and implementing cutting-edge programming and development technologies to stay at the forefront of the industry.

As a resourceful front-end web developer, I stay up to date with the latest technology trends to ensure I deliver clean and modern website designs. I have experience handling complex HTML and CSS coding, designing interfaces, and implementing extensions to meet the front-facing internet needs of organizations. I pay close attention to detail and work collaboratively with others to define project expectations and requirements. Additionally, I am proficient in testing and debugging to ensure consistent performance and address any inconsistencies.

In addition to my front-end development skills, I am also a proficient mobile app developer. I have a strong passion for creating innovative and user-friendly applications.
